Sheet 1 — Assembly overview & key dimensions

BMW E36 modular headlight — LEFT (Vänster) shown, RIGHT = mirror. Units mm. Frame: original housing STL (-Y forward, +Z up, +X outboard). Black = housing (modified original), blue = new printed parts, grey = ASSUMED module envelopes, red = purchased hardware.

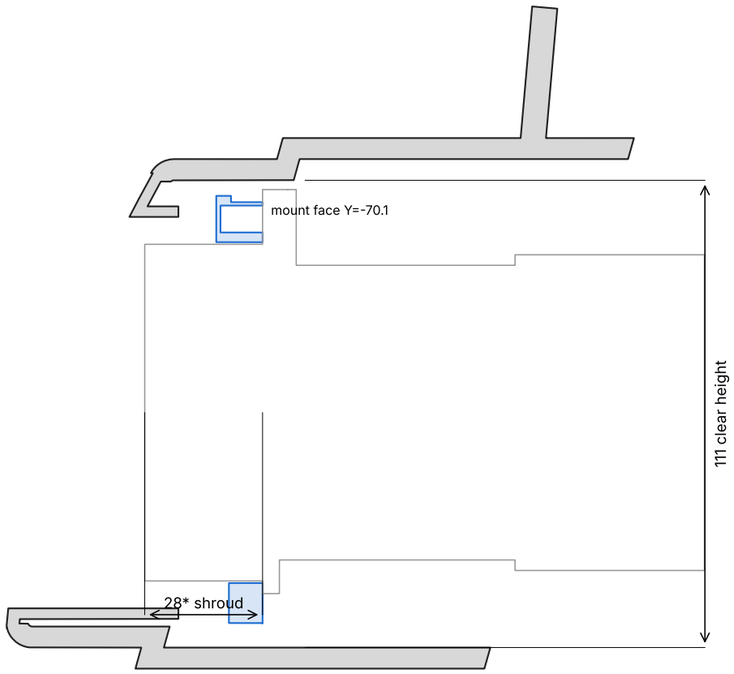

Front view (from -Y) — outline + section Y=-60

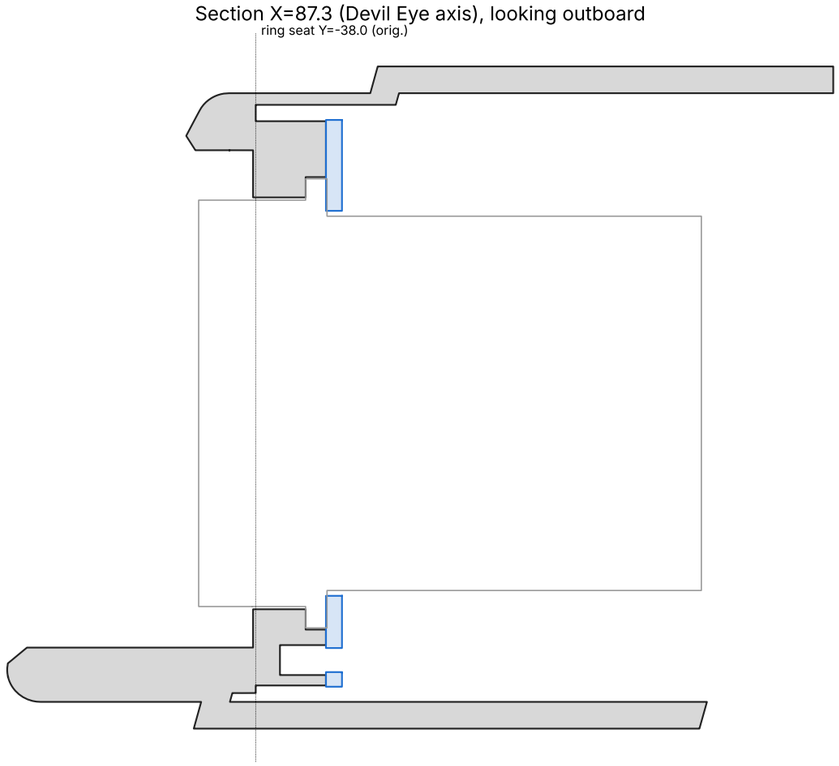

Plan section Z=186.1 (looking down)

Section X=-97.3 (projector axis), looking outboard

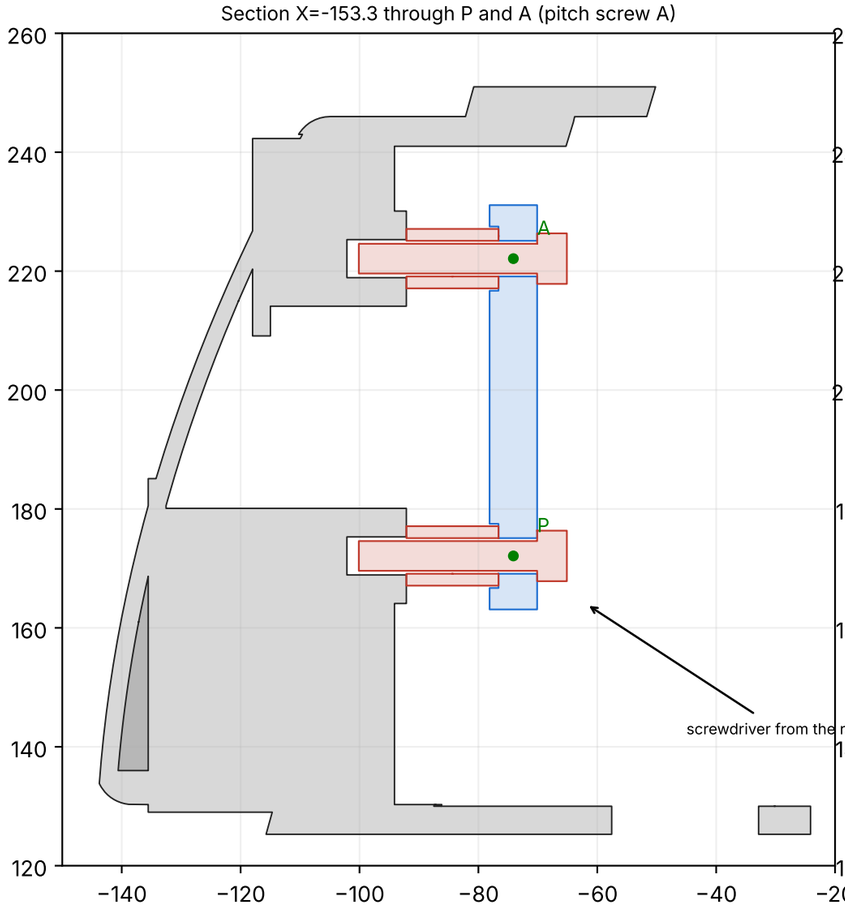

Section X=87.3 (Devil Eye axis), looking outboard

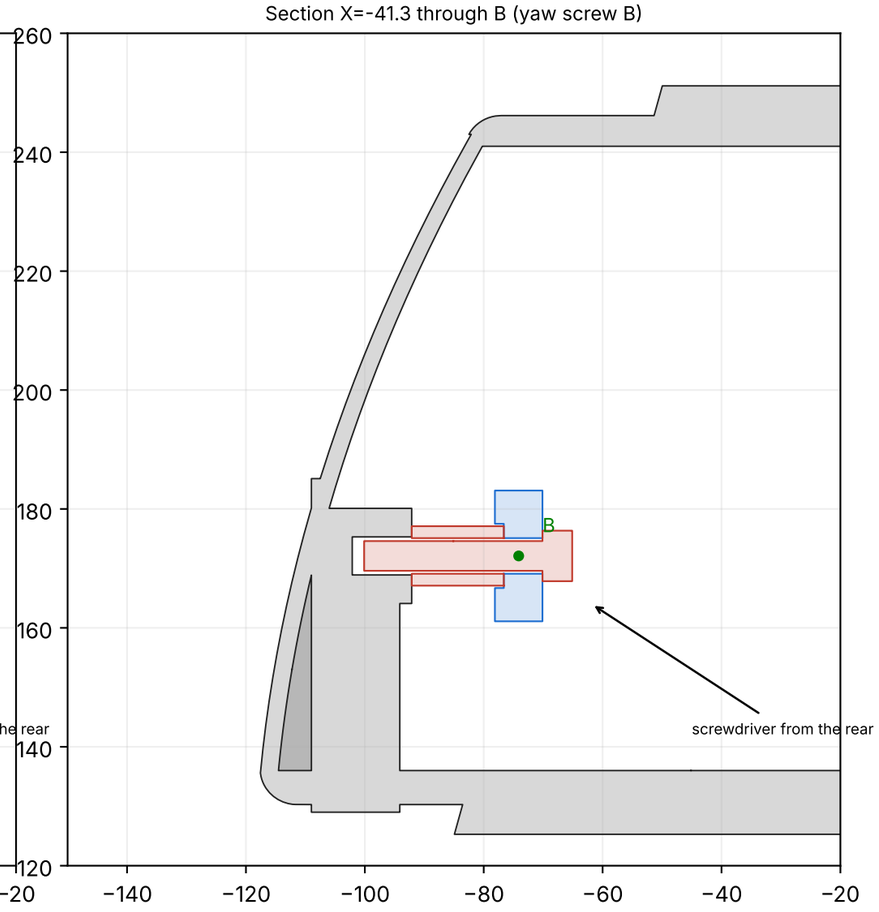

Sheet 2 — Aiming (v2): 3 spring screws P / A / B, adjusted from the rear

BMW E36 modular headlight — LEFT (Vänster) shown, RIGHT = mirror. Units mm. Frame: original housing STL (-Y forward, +Z up, +X outboard). Black = housing (modified original), blue = new printed parts, grey = ASSUMED module envelopes, red = purchased hardware.

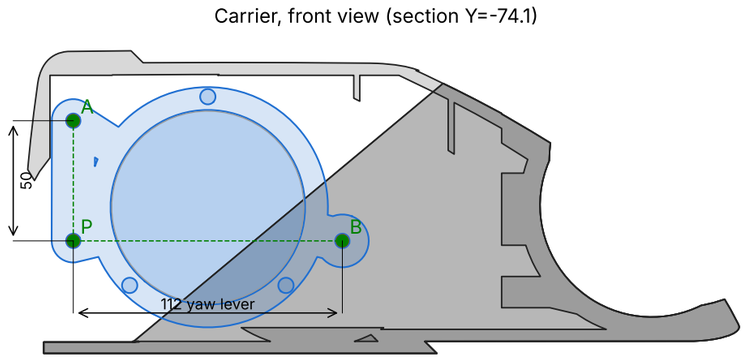

Section X=-153.3 through P and A (pitch screw A)

Section X=-41.3 through B (yaw screw B)

Carrier, front view (section Y=-74.1)

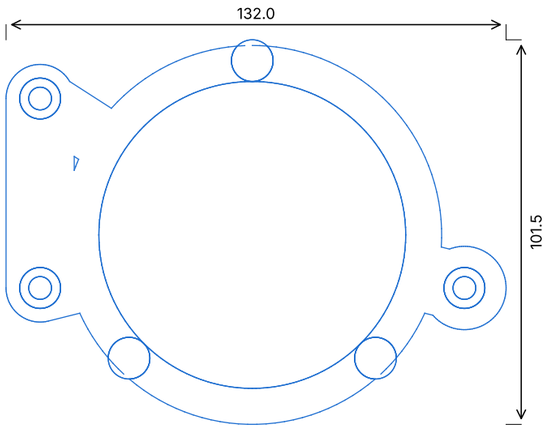

```
Validation (validate.py, real booleans):
  pitch (A): 0.917°/turn, yaw (B): 0.409°/turn
  ±3° both axes, 5x5 sweep: CLEAR
  shroud-to-aperture min clearance: 4.74 mm*
  spring length A [11.4, 16.6], B [8.1, 19.9] (free 22)
  rear removal: projector clear, devil eye clear

Hardware per lamp: 3x M5x35 ISO 4762 A2 (P, A; B M5x40),
  3x stainless compression spring OD10 / ID6 / L0 22 (installed 14),
  3x M5 heat-set inserts in the posts (printed on the skin back).
Screws tighten = carrier forward; loosen = springs push back.
Use nylon-patch screws, or a drop of
  removable threadlocker after final aim.
* depends on ASSUMED module dimensions — re-run after measuring.
```

Sheet 3 — Separate printed parts (installed orientation, bounding dims)

BMW E36 modular headlight — LEFT (Vänster) shown, RIGHT = mirror. Units mm. Frame: original housing STL (-Y forward, +Z up, +X outboard). Black = housing (modified original), blue = new printed parts, grey = ASSUMED module envelopes, red = purchased hardware.

projector_carrier (132.0 x 11.0 x 101.5, 32.9 cm³)
view along Y

devil_clamp (106.0 x 3.0 x 106.0, 14.1 cm³)
view along Y
